## INTRUSION ON MONROE EDICT IS NOT LIKELY

Requests of Bolivia and Peru Have Been Withdrawn.

Geneva, Nov. 16.—(By Associated Press)—All danger that the assembly of the League of Nations may encroach upon the Monroe Doctrine by considering American questions in the absence of the United States has been averted by the withdrawal of a request by Bolivia and Peru for revision of treaties with Chile. Their requests were withdrawn yesterday, it having been Bolivia's purpose to gain access to the sea, and Peru to secure recognition of the vexing Tacna-Arica question.

It is not expected that any other American questions with dangerous possibilities will come before the present session of the assembly.

It is reported that South American delegates have agreed the League of Nations should do all it can to get the United States to become a member nation.

Argentina is regarded as a strong candidate for representation on the council of the league. The four elective members of which will be chosen by the assembly after receiving the report of the committee on general organization.

## Whiteside Coroner Had Busy Time on Saturday-Sunday

Coroner Frye of Whiteside county was kept busy Saturday and Sunday with three inquests in one accidental and two sudden deaths. Mrs. Sarah Richards of Prophetstown, aged about 80 years, and an early settler in Whiteside county, failed to hear a warning train bell while crossing the Burlington tracks at Prophetstown on Saturday afternoon and was struck by a switching freight train, being instantly killed.

A two months' old son of Mr. and Mrs. David D. Connell of Hahnman township, south of Rock Falls, was found dead in bed by his mother Saturday morning, the little one having apparently strangled to death.

Charles F. DeWitt, conductor on the Burlington freight from Sterling to Savanna, aged 49, dropped dead in the Motor Inn garage at Sterling late Saturday afternoon while watching workmen wash an auto. He had come to the garage to get his car and apparently was feeling in excellent health.

## Hot Debate Rages in Con-Con Today

By Associated Press Leased Wire Springfield, Ill., Nov. 16.—A proposal to amend the revenue article so as to provide protection in equity of the interest of "tax-buyers" started debate on the constitution convention floor this morning which may extend throughout the day.

Introduced by General Abel Davis of Chicago, and approved on the floor by Henry I. Green of Urbana, this amendment, it was declared would cure the evil in tax buying. Under the present constitution and law, the tax buyer's only recourse is ejectment proceedings in law. The amendment would give the buyer an equity right.

Argument over this proposal got so warm at one time that Frank S. Whitman of Belvidere, who is presiding, called for order and demanded of the delegates that they confine themselves to questions and answers "and quit arguing or we shall never get through."

## Put Bell on Broker Going Into Forest

By Associated Press Leased Wire Minneapolis, Nov. 16.—Horace Jackson, Chicago grain broker, who nearly perished from cold and starvation in the woods near Ely, Minn., four years ago when he became lost while on a hunt for big game, is again in the North Woods on a hunting trip.

Fearing for his safety in the woods, Mr. Jackson's friends on the Chicago board of trade tied a large cow bell to him after he had announced his intention to start for Duluth. The presentation was made in the out pit at Chicago by Garry B. Shaw, who said: "We do not want you to get lost this time, and with this bell tied on you there is no danger. Ring it and scare the wolves away."

## VENIZELOS AND MINISTRY QUIT AFTER DEFEATS

But Allies May Oppose Constantine's Return to Throne.

BULLETIN. By Associated Press Leased Wire Athens, Nov. 15.—10 p. m.—(By Associated Press)—Troops fired from a number of points on several occasions today to disperse after-election trouble-makers. Tonight there are fears of further trouble which may lead to martial law, and there is said to be danger that the army may get out of hands.

BULLETIN. By Associated Press Leased Wire Paris, Nov. 16.—An Athens dispatch, received here this noon, said it had been announced that the opposition leaders in Greece had decided to entrust the formation of a cabinet to George Rallis, but as he had refused to undertake the task it was believed former Premier Gounaris would head the new government.

BULLETIN. Athens, Nov. 16.—(By Associated Press)—Premier Venizelos decided last night not to resign if reports that the army had cast enough votes for deputies to give him a majority of 220 or more votes in the new Greek parliament were confirmed.

Earlier it had been announced that the ministry were preparing to turn over power to the opposition and that a new cabinet would be formed with George Rallis, former premier and minister of finance, as its head. Mr. Rallis is 80 years old, his last public office being that of minister of finance in the Zaimis cabinet in 1916. Previous to that time he took a prominent part in Greek politics.

By Associated Press Leased Wire Athens, Nov. 16.—Premier Venizelos' cabinet resigned early today, and Admiral Coundouriotis, the regent of Greece, has sent for George Rallis to whom, it is expected will be entrusted the formation of a new ministry.

The complete victory of the opposition seemed almost certain last night, although final results were still lacking. Even leaders of the elements opposed to Premier Venizelos in the elections held on Sunday were surprised by the showing their candidates had made in Salonika and Attica.

It is said M. Venizelos will leave the country and he has advised Liberals to abide by the verdict of the people.

Demetrios Gounaris, leader of the opposition, has declared the foreign policy of Greece will not be changed.

Latest returns from the election gave the supporters of M. Venizelos 118 deputies against 250 royalists. M. Venizelos and all but two of his ministers were beaten. None of the Venizelos candidates were elected in Greece and Macedonia, with the exception of Epirus and the Aegean Islands.

Two persons were killed by shots fired from houses facing the foreign office yesterday. It was declared that reactionary elements were responsible for the firing. Armed police rushed to the scene and a lively fusillade resulted. Further trouble was feared last night.

## MAY OPPOSE CONSTANTINE.

By Associated Press Leased Wire Paris, Nov. 16.—Reports that Premier Venizelos of Greece, met defeat in the elections held on Sunday, came as an unpleasant surprise to Paris. Newspapers here agree that England and probably France will forbid the return of former King Constantine to Greece.

Hope is expressed "Pettinax" political editor of Echo de Paris that even a compromise placing Prince George, eldest son of Constantine on the throne, will not be sanctioned by the entente. Most writers fear the result of the election, if it brings about the fall of Venizelos, will still further complicate the already difficult situation in the Near East.

## LAST CONCRETE FOR I. C. BRIDGE POURED TODAY

## Bates & Rogers Finish Work According to Their Plans.

The Bates & Rogers Construction company are today pouring the last concrete for the pier which will support the new Illinois Central bridge across Rock river at this point. The contractors have been successful in building all of the piers before cold weather halted this part of the work, although some of it has been done under great difficulty.

Much of the steel is on the ground ready to be placed as soon as the cribbing around the last two piers is removed. The excavations for the piers and the driving of piling in the bed of the river delayed the work considerably, the contractors striking rock formations in the river bed which hindered their progress materially. They had originally planned to have the piers completed by the first of September.

## Wrangel and 20,000 Troops Sailed for an Unknown Port

By Associated Press Leased Wire London, Nov. 16.—General Baron Wrangel, head of the South Russian government whose army has been virtually wiped out by the Bolshevik offensive in Crimea, left Sebastopol on a Russian cruiser filled with soldiers, says Constantinople's dispatch to the Exchange Telegraph company. The cruiser was accompanied by three transports carrying 20,000 troops and another carrying wounded men, the fleet sailing for an unknown port.

Russian Soviet forces had not reached Sebastopol before the city was evacuated, it is said. The United States destroyers Humphrey, Whipple and Edwards arrived at Constantinople with refugees yesterday.

## FRANCE'S ATTITUDE

By Associated Press Leased Wire Paris, Nov. 16.—The defeat of General Wrangel whose South Russian government had been recognized by France, does not mean that France is ready to consider recognition of the Russian Soviet government, it was said at the foreign office today.

## ARTIST SCORED BIG TRIUMPH WITH DIXON AUDIENCE LAST NIGHT

## Middleton Stirred All Who Heard Recital at M. E. Church.

That Dixon people are lovers of high-class music was plainly evidenced last evening in the large audience at the Methodist church which assembled to hear the concert given by Arthur Middleton, bass-baritone.

The ladies of the Methodist Aid society are to be congratulated upon the unqualified success scored in the first entertainment of the course they are sponsoring.

Of fine physique, Arthur Middleton possesses an easy and natural stage presence, and at once wins the hearts of his hearers. His first group of songs proved this: "Handels, 'Where Ever You Walk,' being especially beautiful. The artist was ably assisted at the piano by Robert Yale Smith.

In the group of Italian songs Middleton gave ample proof of latent dramatic power. In Rossini's "Largo al Fatto," and "Favore Marinar," he gave great pleasure. In the last mentioned number the accompaniment is most appealing and Mr. Smith proved himself the artist that he is in his superb execution. The audience called for an encore and in singing, "Sorter Miss You," a simple but effective ballad, Middleton quite won the hearts of his listeners. From the heavier Italian numbers he showed a wide range of tone and power in singing the lighter encore number very sweetly. In the selections by Homer, the "Banjo Song," and "Uncle Rome" were favorites, the sweet soothing music of these songs forming a great contrast to the last one in this group, "How's My Boy." Here again the dramatic ability of the grand opera star was shown to some extent, the song bringing tears to the eyes of many a mother in the audience.

He was called back for another encore and sang, "Standin' in the Need of Prayer."

In the Kipling ballads, "Mother o' Mine," and "Danny Deever," those old favorites were beautifully given. It is difficult to single out the numbers which gave the greatest pleasure to the audience, as all were so uniformly excellent. At the close of the program as the artist retired amid a storm of applause, he was requested to sing, "Swing Low, Sweet Chariot," complying graciously and singing the simple old negro melody with a sweetness which lingered with one long after. If one missed the concert of last evening one missed a genuine musical treat.

## Six Firemen Hurt in \$400,000 Fire in Milwaukee, Wis.

By Associated Press Leased Wire Milwaukee, Nov. 16.—Six firemen were seriously injured here last night in a \$400,000 fire which gutted a four-story building occupied principally by the Milwaukee Seed Co. The firemen were injured when the rounds of an extension ladder collapsed as they were carrying a line of hose to the top of the building. Oscar Knott, one of the firemen, after having plunged headlong from the top round of the ladder to the four floors below is living.

The fire was under control at midnight after a two hour fight. A scientific prize chicken farm on the roof of the building housing 400 blooded chickens was destroyed.

## Rockfords, Loaded for Dixon, Rankled Under Their Defeat

The sport critic of the Rockford Register-Gazette who attended Sunday afternoon's contest between the Dixon American Legion and Rockford 706 football teams, appears to have taken the 7 to 0 defeat more or less at heart. He comments on the reception tendered the visitors and calls attention to hissing and hooting. The reception accorded the visitors was apparently not to their liking and the defeat administered by the Legion did not have a soothing effect.

The comment of the Rockford publication Monday evening is as follows: "In the opinion of 706 players and spectators all the referees needed at Dixon Sunday was a horse. The local contingent, strengthened by Schwimmer, Muecke, Nels Johnson and Enfield Carlson of the R. A. A. C. team, was defeated by the Dixon American Legion eleven, 7 to 0.

"Although the head linesman's rod proved the ball to be Rockford's after four downs, the referee did some weird measuring which resulted in the ball being declared a touchdown. The snow effaced all lines on the field and protests proved unavailing.

"Rockford gained considerable more than Dixon, Hess being the only consistent player on the Dixon team. Rockford men were warned and penalized for 'rough tackling,' and Burns was put out of the game because he hurled himself in front of a Dixon runner instead of tackling.

"Throughout the game the visitors were hissed and hooted at by the spectators who swarmed over the field in the wake of the play."

## George E. Wiemer Died Monday Eve

George E. Wiemer, a pioneer resident of Dixon, died at the home of his nephew, Ray McCune, about two and a half miles east of the city last evening at 7.15, following a lingering illness of several weeks duration with Bright's disease. Mr. Wiemer will be remembered by the older residents of Dixon and vicinity, he having come direct from Germany to this city in 1868 and for years followed his occupation of carpenter and contractor here.

He was born Sept. 18, 1834 at Darmstadt, Germany and was united in marriage to Christina Rohrer at Munheim, Baden, Germany, July 10, 1865. Two years later, in May, the young couple came to the United States and to Dixon where they made their home. To this union, five children, three daughters and two sons were born: Mrs. W. I. McCune of this city, William Wiemer of Boyero, Colo., Mrs. A. J. Fick of Grand Detour, Louis, who died several years ago, and Mrs. J. U. Welstead of this city. Four grand children and five great grandchildren also survive. His wife preceded him in death nine years ago.

The deceased was a member of the volunteer fire department of Dixon, serving about four years from 1876 to 1880. The funeral arrangements have not been completed, awaiting the arrival of a daughter, Mrs. W. I. McCune, who is in Idaho, and will be announced later.

## GREATEST CONTEST OF DIXON Y. M. C. A. STARTED THIS MORN

## Eight Teams Begin Campaign for Many Members.

They're off! The whistle has blown and the big games are on, eight of 'em—eight. At the big banquet last evening all the regulars were on the job and not a substitute followed the ball down the field. About 125 enthusiastic players gathered around the different training tables which were decorated with the colors of the respective colleges and from the time they sat down till the cats were all cleaned up the cheers and yells echoed thru the halls.

Chicago started the noise and the other colleges soon took up the cry and when the ladies got busy they made as much noise as the men. In all it was the most peppy meeting that has been pulled off at the Y in some time. At times when they could slide in between the noisy outbursts of the players a mandolin orchestra rendered selections that were thoroughly enjoyed by the entire assembly.

Director Outlines Work. Athlete Director Leland directed the operations of the teams, explaining in detail just what were fair and foul plays, what they could do and what they could not do. The head coaches, King of the western teams and Ahrens of the eastern teams put pep in their teams with short snappy talks and members of the teams told what they thought and what they were going to do during the bloody battles to come.

State Secretary A. O. Booth of the Northern district of Illinois, gave an interesting talk telling how the Dixon Y. compares with other Associations of the state and what could be done to make the Association more of a community center. He also gave the players some valuable points on how to buck the line, especially did he coach the back field, and there should be substantial gains made thru the line before evening.

## First Report Tomorrow

Tomorrow noon the teams will meet at a luncheon at which time reports of progress made will be rendered and this will give some indication of the relative strength of the eastern and western teams. Today's games are as follows:

Illinois vs. Harvard.  
Chicago vs. Yale.  
Minnesota vs. Cornell.  
Wisconsin vs. Princeton.  
Notre Dame vs. Army.  
Michigan vs. Navy.  
Wellesley vs. Frances Shimer.  
Vassar vs. Rockford College.

## Another Explosion at Morrison Plant

Another explosion occurred at the I. N. U. gas plant at Morrison Saturday morning, but the damage was confined to the purifier and meter rooms and was slight compared to that sustained when the plant blew up May 2, 1919. No particular injury was done to the machinery, and the making of gas was only slightly interrupted.

It is believed that gas escaped from one of the purifiers in sufficient quantities to fill the room, which was closed, and that it was ignited in some way from the stacks, and the explosion followed. A gasket was blown off one of the purifiers and one purifier material box slightly damaged, but no other injuries could be discovered.

## HIGHWAY TO BE OPEN TO RIVER IN THIRTY DAYS

All But 13 Miles of Lincoln Road is Now Paved.

By Associated Press Leased Wire Springfield, Ill., Nov. 16.—Within 30 days the Lincoln Highway will be opened from Chicago to Clinton, Ia., the state division of highways announced today. This will be a hard surfaced road the entire distance except for 13 miles of gravel and macadam, the remaining is either concrete or bituminous macadam.

Next year the department announced either concrete or bituminous macadam will replace the thirteen miles of gravel and macadam.

Only two detours will be necessary on the highway through the winter. One is at the Des Plaines river in Cook county, where a new bridge is being constructed. The other, between Aurora and Geneva, will be over an excellent gravel road.

Fifty-one miles of the highway have been completed since January 1. The uncompleted portions are: seven miles between Geneva and Elmhurst, now paved with gravel; two and a half miles east of Dixon; now paved with macadam; two miles west of Sterling, now gravelled, and a mile and a half of present macadam east of Fulton.

## Indictment Stands Against G. Backer

By Associated Press Leased Wire New York, Nov. 16.—Judge Aldrich of the Court of General Sessions today refused to dismiss the indictment charging perjury against George Backer, millionaire builder, returned in connection with the investigation of New York's "building trust." The defendant was ordered to plead to the indictment.

It was charged that when Backer appeared before the joint legislative committee conducting investigation he first testified he had lost \$25,000 which one builder declared he had given Backer to have a strike called off and then admitted he had paid it to "two strangers looking like former workmen."

Backer's counsel yesterday made a motion to dismiss, attacking the validity of the indictment on the ground that the committee did not have the legal power to administer an oath.

New York today became the scene of two parallel investigations of the alleged "building trust" here. The joint legislative committee, with Samuel Untermyer as chief counsel, which has been conducting an inquiry for the past two weeks, hereafter will confine its labors to efforts to expose graft in the city's private building enterprises, while the city administration will delve into reports of illegal acts in connection with contracts for public buildings, such as school houses, court houses and other structures.

Mr. Untermyer said the investigation by the legislative committee, which will be resumed on Thursday, "has merely scratched the surface of a few small monopolistic combinations in the building situation," and that the large concerns would be attacked with the aid of federal authorities.

## Permit Withheld at Action Says Shipping "Stung" Was Easily

By Associated Press Leased Wire New York, Nov. 16.—Asbestos enter rings used on engines of United States Shipping board vessels, affairs ed into the congressional committee inquiry into shipping board activities here today.

Stewart Dickson, president of Stewart Dickson & Co., Inc., testified that asbestos was purchased by the board in February and March of this year at prices 50 per cent higher than that which they should have been. He said there were five bidders for the contract, four of which were virtually the same. The four averaged about \$1.50 a pound. His bid was \$1.20.

In explanation, he said, he was informed the engineers had complained against his product. Dickson added that he had never paid any gratuities and had never been asked to do so.

## Sterling Prepares for Hard Game with Dixon Thanksgiving

Sterling high school's eleven, which Dixon meets in the final game of the season on Thanksgiving day, defeated Princeton Saturday 13 to 0. The Sterling coach is said to be grooming his team especially for the Turkey Day game, realizing that Sterling's victory by a 3 to 0 score here a few weeks ago was a fluke. Dixon will go to the berg at the other end of the interurban line Turkey Day with grim determination to prove to Sterling fans that the result of the first game was not a true indication of the abilities of the two teams.

## TO COMPLETE COURSE.

On December 10th, Miss Hazel Lindsey, who will have finished her three years' course of training at the Katherine Shaw Betha Hospital, will leave for her home in Oregon, Ill., where she will rest for a period, before engaging in active duty.

By Associated Press Leased Wire Chicago, Nov. 16.—Every bushel of wheat of contract wheat in Chicago public elevators is Canadian grown, except 2,000 bushels, according to official figures made public here today. The total stock is only 86,000 bushels, and of this amount \$4,000 bushels is Canadian. The supply decreased 168,000 bushels in the last week. Lack of accumulation of stocks of wheat not only here but at other western markets is general and in this connection the present small movement from the hands of farmers is attracting special attention.

## INDIANS ABUSED BY FEDERAL OFFICIALS INVESTIGATOR SAYS

Their Lands Leased to  
Cattle Men, Among  
Many Charges.

By Associated Press Leased Wire  
St. Louis, Mo., Nov. 16.—Sweeping criticism of the administration of the office of Indian affairs and charges that Indians have been subjected to various abuses, including unlawful seizing and leasing of property by agents of the government, were made by Thomas L. Sloan of Washington, D. C., president of the Society of American Indians, in his report at the opening session of the ninth annual conference of the organization here today.

The report also charged that legislation in the interest of the race was blocked in the last session of congress by the office of the commissioner of Indian affairs.

Lands belonging to Crow Indians in Montana have been leased by reservation superintendents to a farming corporation, the report charges, and

that of the Fort Belknap Indians "given to the use of a cattle company. On the Pine Ridge Sioux reservation in South Dakota, it continued, a territory about 40 miles long and 20 miles wide was thrown open by the policy and order of the commissioner or assistant commissioner of Indian affairs to the use of a cattle company."

All of this land was owned by Indians, the report says and much of it populated.

Another charge in the report is that tribal herds were allowed to roam over the property of individual members of the Blackfoot and Crow tribes destroying crops, and that their stock was allowed to starve.

Indians have been arrested and imprisoned by agency officials, the report alleges, despite the fact there is no authority for such action.

## Japanese Mobs in Raids on Salvation Army Sunday Meeting

Tokio, Nov. 15. — Anti-Christian mobs twice broke up Salvation Army jubilee celebrations here yesterday. Gangs of students dispersed an open air gathering, tore down the decorations and silenced the speakers. ## NEW YORK LETTER

NEW YORK — Chinese coolies are crossing the United States in sealed cars at the rate of 1000 a month, bound for Cuba by way of New York; but they do not travel in the homelike chevron expresses so familiar to the soldiers of the A. E. F.

"They come in at San Francisco and are loaded at the wharf into cars that go straight through to New Orleans or Tampa, excepting for the New York transfer," says William A. Young, Jr., of San Francisco, general passenger agent of the Pacific Steamship Co., who was here supervising one of the transfers. "The railroads provide first class day coaches with barred windows, seal up the doors and furnish guards and the government puts immigrant inspectors in charge."

"There is an oil stove set up at the end of each car, and the coolies bring their rice along and all cook in turn. They also take turns in washing their dishes and their clothing in the one basin of the car. The rest of the time they debate among themselves or play fan-fan. They are a bit scared of the new country and never try to get off the cars."

"When the coolies reach Cuba they are distributed around among the sugar and rice plantations according to their contracts. Their pay is very high in terms of their earning power in China."

A new kind of Glidden trophy cross country automobile tour is being arranged by an auto publication. It will run from Boston to Florida starting Dec. 8 and run through New York City. Rather than being an endurance test for manufacturers' advertising benefit, it will be strictly for the private owners who are induced to go on it. One feature will be a traveling auto repair shop, with a mechanic who is no Jesse James inside of it; and another will be a commissary car full of grub. No camping by the roadside is intended for nights, but the promoters have taken the precaution to arrange for an advance man who will go ahead making local hotel arrangements calculated to enable participants in the tour to "pay out" in the morning and still have money for gasoline.

We flush Americans are not exactly as bad as foreigners have heard we are. For instance, Adolph Garcia, 12, and Joseph Padalia, 13, both heard down in British Honduras that the prevailing price for shoe shines in New York is \$1. Believing it, they stowed themselves away in the hold of the United States Fruit liner Sagua, confidently expecting that they would shine shoes for few weeks and go home laden with enough to pay off the respective paternal mortgages. They are being held on Ellis Island and, of course, will be deported.

Might as well try to escape the Royal Canadian Northwest Police as a gas company. William Kissell, over in Hoboken, enjoyed free gas on two floors of his four-story building for

seven years. He didn't know that the gas company had no meter there, and for that matter, neither did the gas company. But the gas company found out about the oversight the other day. So Kissell is defending a suit to collect \$1000, estimated to be the amount of gas consumed in the seven year period.

It wasn't the crash of the plate glass window that disturbed the tranquility of 48th street and 6th avenue. It was the spectacle a moment later of a young man dragging what appeared to be a young woman most unconventionally clad into a hallway that caused onlookers to utter loud cries. It looked to them as if the man was trying to walk with a highly intoxicated woman.

A policeman at the head of a posse of citizens dashed into the hall-way and soon afterwards reappeared with a young man who carried in his arms, so it is alleged, a mole-skin coat and a pair of pink silk bloomers.

In the West Side Court it was testified that the clothing in question had been the attire of a dummy in the window, that of a fashionable dressmaker, and this dummy had disappeared. The coat and bloomers were valued at \$500. The prisoner, is still a prisoner.

Eleanor Glyn had found her ideal man. When she arrived from Europe last week she said that she would seek him in the West. But she didn't have to step out of New York. She has placed the wreath of laurel upon the brow of Orville Caldwell, who is the Sultan in Morris Gest's spectacle "Mecca."

"He is magnificent, beautiful, just like the young Greek God I have always imagined my heroes to be in my novels. Wonderful, superb, magnificent," says Mrs. Glyn in rapture.

But listen to what Orville himself says: "Where does she get that stuff?"

Seven hundred cases of canaries were flooding the American Line's Mongolia with melody when she arrived here from Hamburg. They will be shipped to dealers throughout the country.

## 8,000 PURE BRED ANIMALS ENTERED FOR COMING SHOW

### Live Stock Exposition in Chicago Will Be Biggest Ever.

That interest in live stock has not been impaired by war exigencies is indicated by the heaviest entries for the twenty-first anniversary exhibit of the International Live Stock Exposition this year.

The 1920 entries exceed those of any previous exposition.

Numbers, however, will not be at the expense of quality, as the aristocrats of the animal world, the prize winners of all other shows, will be assembled here in a final contest, making the 1920 exhibit superlative in every degree.

The best seed stock of the world will be on view, insuring a series of the most spirited contests ever witnessed in a live stock display arena.

Figures talk, possessing a reputation for veracity, not to be disregarded and a colossal exhibit of approximately 8,000 pure-bred and high-grade horses, cattle, hogs and sheep at Chicago this year, from November 27 to December 4, will mark high tide in the sphere of live stock improvement effort.

The management, however, will not content itself with giving the visitors a greater and better exhibition of live

stock, but has also planned to enlarge upon its educational work, and an effort is being put forth to offer much additional helpful information in new and original forms to those attending the show. The spectacular side of the exposition will be as prominent as the practical. A series of evening attractions of unique character are being secured which assure a program that will eclipse anything ever offered in the past.

If you miss this year's show you will be the loser. Plan your trip now. Give the madam a treat and purchase the boys a gilt-edged security by taking them along, so they may gain inspiration from seeing the products of the master feeders and absorb lessons which cannot be acquired through any other channel than this supreme event of this season.

## CHURCH NOTES.

### GRACE CHURCH NOTES.

A number of new members were added to the Sunday school and Keystone League of Christian Endeavor on last Sunday.

In the sermon in the morning the pastor said that a Christian is a person who has experienced the new birth and that always means the beginning of a new life. His conduct will resemble the life of Christ so strongly that his acquaintances will note that he is like Christ. He will be diligent in his efforts to persuade other people to become Christians, and he will be

willing to suffer because of his loyalty to Christ.

The sermon in the evening made a sharp distinction between religion and salvation. There are many religions; there is but one way of salvation. The importance of religious instruction in the home, was emphasized. Two brothers were hit by a German shell and rendered unconscious, in the great war. When they regained consciousness one of them said, "George, do you remember the things mother used to tell us when we were little? I keep hearing her telling us Sunday school when we were boys at home." In their last hours in life those early impressions influenced their thought more than anything else. A revival of religion in the home is the need of the hour.

One lady came to the altar as a penitent at the close of the service. The prayer meeting on Wednesday evening at 7:30, will bring help and inspiration to many. The senior choir will meet immediately after the prayer service.

The pastor will meet the new converts on Friday evening.

Postmaster William Clapper who underwent a serious operation at the Augustana hospital in Chicago, passed away at 8 o'clock Wednesday morning. The remains was brought on the noon train Thursday and taken to his home on South Division street, where the funeral was held at 2:30 o'clock Friday afternoon. He is survived by his wife who was formerly Miss Lillian Allen and one brother, Edgar Clapper of Polo, one niece, Mrs. Cornelia Clouse of Iowa, and one nephew, Dr. Paul Clapper of Peoria. Burial was made in the Fairmount cemetery.

Calvin Shrader was born Oct. 1, 1855 at Hagerstown, Md., and passed away at 9 o'clock Saturday night, Nov. 6, at the home of his son, Harvey Shrader. Death was due to catarrh of the intestines. He was 65 years, one month and six days of age. He is survived by four sons, Harvey, Wesley and Guy of Polo and Milton of Los Angeles, Calif., and 11 grandchildren. His wife preceded him in death two years ago last March. The burial took place Friday afternoon with short services at the grave. On account of the illness of his grand-

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any drugstore, pour it into a pint bottle, and add plain granulated sugar evenly to make a full pint. If you prefer use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract known the world over for its healing effect on membranes.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., St. Wayne, Ind.

## BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

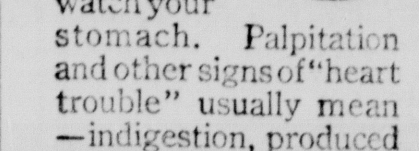

The pleasant, little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dizziness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 50c.

Ask Supreme Court to Rush Appeal of Newberry Election

Washington, Nov. 15.—government today requested the supreme court to set next Jan. 3 for hearing argument in the appeal brought by Senator Truman H. Newberry and sixteen others from convictions on charges of conspiracy to violate election laws in Senator Newberry's election in Michigan. Former Associate Justice Hughes, counsel for Mr. Newberry, concurred in the request.  
In making the motion to advance Solicitor Fredson declared the case was "one of public importance since it involved an attack upon the constitutionality of the corrupt practices act."  
"If the judgment is affirmed," Mr. Fredson said, "the plaintiff in error, Truman H. Newberry, can no longer hold his seat in the United States senate to which he was elected. On the other hand, if the judgment must be reversed, it is of great importance not only to people of the state of Michigan, but to the people of the United States that the cloud which it places upon his title be promptly removed."

British Fleet in Black Sea Neutral

London, Nov. 15.—As Great Britain has never recognized the Wrangel government in South Russia and now

is proceeding with negotiations aiming at the opening of trade relations with soviet Russia, the British navy will continue to observe strict neutrality in the Black sea, it was stated today. Reports from Constantinople that the British navy would assist in the blockade of Black seaports were denied by the admiralty.

DEAR OLD BOY PETE!

Dallas, Texas, Sunday,

This corner of the U. S. mainland is so wonderful in its bigness and bustle I guess I go mouth wide open and eyes staring! Why, Pete, Texans don't talk in miles—it doesn't mean anything! They'll tell you that this place, or that, is an all-day trip, or two days and a night distant, etc. And, old yardstick, you've got the feet, just let it sink in deep that Texas is not only over 800 miles wide but it is our fifth state in population!

Heard a bird in the Adolphus Hotel say that when he comes off the west border he figures he's close home to Baltimore when he's across the Lone Star State! Talk about "jumps"! Try a few, say the one between Texarkana and El Paso!

Pete, everything grows big down here—business as well as folks' hearts! I like the way they never forget! Here I was walking on Main Street yesterday when as fine a type of man as ever wore one of those broad Texas smiles came up to me. "How are you, lieutenant?" says he. "Maybe you'll call back that day at Camp Dick when I brought over that bunch of Camel Cigarettes for the boys," he continued. Right then a Camel conference opened!

Golly, Pete, this party coins Camel compliments faster than the mint makes money! "Lieutenant," says he, "I know when I'm 'set'! I've smoked cigarettes for five years! (NOW LISTEN, PETER!) I know Camels and I know their marvellous mild, mellow body and refreshing flavor and wonderful Turkish and Domestic blend! A million Camels wouldn't tire a smoker's taste!" Now, Pete, I'll say that's some testifying!

Sincerely

Shorty.

P. S.—Between you and me I'll be gazing at tall buildings and things around 43d and Broadway—N-E-W Y-O-R-K—about the hour this note hits Boston's Back Bay! Write me at the same old stand!
